## TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue) and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 3 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for 50 cents, if ordered before the sale date.
9. Please send your bids now as there is little time left before the sale.

### UNITED STATES SILVER DOLLARS

This is probably the most popular series of U.S. coins today. This also is one of the finest collections we have had for several years. The quality throughout is superb, especially in case of the

Morgan dollars from 1878 to 1904, which are being collected so much today, because of the fortunate availability. I have always contended that the time to buy any coins is when they are available. Never before have there been such good opportunities to get the Morgan dollars at reasonable prices, and this situation will not always be the same. Take for example the 1903 "S" dollar, of which a bag of 1000 came out 3½ years ago. This was one of the first in recent years to be released by the bag, and the coins were quickly bought up, and are well on their way up in price now selling around \$35 each. Many collectors and dealers wish now they had purchased more of them. Some of the others presently appearing, will go the same way, given time. I am in the market to buy Morgan dollars of all dates and mints, as well as all other dates of silver dollars. All are gone from the San Francisco mint, and stocks in the Philadelphia mint dropping off fast, according to reliable information. Most big stocks in banks are used and circulated coins, of no value to collectors. With late date half-dollars, and other U.S. coins, even nickels too, now at high or prohibitive prices in uncirculated condition, many collectors are switching to this series, the Morgan dollars of 1878 to 1904. These are the best "buys" in the market today, in my opinion. Because some of the dates and mints have been released in various banks over the country, hundreds of new collectors have joined our ranks, as they can get a few of them at face value, and many more at small cost. Dollars cost no more than uncirculated one-cent pieces, and you have a larger and certainly more beautiful coin, and better for shows and displays. Also, in case of panic, or bad times, the face value of your collection is 100 times as much, a consideration that would be helpful should days of darkness come. At the last three sales, more bids were received on the series of Morgan dollars, than on any other series in the sale. Coin market trends do change, and have seen many such changes in my time. Please note that all coins in this sale have been carefully graded as to condition by Mr. Bolender personally, in every case, and are guaranteed to please the purchaser. Collectors of experience have found that there can be a difference in quality of these coins. Many being offered today should be in banks, and not in cabinets of collectors. The coins in this great collection are quality coins.

### U.S. SILVER HALF-DIMES The Louis L. Lincoln Collection

- \*1186. **1794 half-dime.** The first year of regular coinage. Liberty head to right, with flowing hair. 15 stars. Reverse: large eagle, with upraised wings; around UNITED STATES OF AMERICA. Extremely fine. Reverse: small planchet defect on edge, and very slight edge dent. Beautiful obverse, and coin is partly toned to blue and golden colors. Very rare. \$90.  
 1187. Same as preceding. Very fine. V. rare. \$75.  
 \*1188. **1795 half-dime.** Similar in type to preceding coin. Flowing hair in 7 curls. First star close to second curl. Reverse: 3 berries on left branch, 4 on right. Fine; obverse has minute scratches visible under a glass, and three stars weak. A nice reverse. \$25.  
 1189. **1795 half-dime.** Struck from different dies from preceding coin. Wide date, with 1 and 5 touching bust, also last star. First star has two points touching two lowest curls. Reverse has 5 berries on each branch of wreath. Small dent in field before chin, otherwise entirely fine. \$25. All these early half-dimes in much demand for type sets.  
 1190. **1796 half-dime.** New type, Fillet bust r., hair tied in ribbon. Reverse also different, with much smaller eagle on clouds, and a different wreath, having berries only on left branch. Very good. Rare. \$40.  
 1191. **1797 half-dime.** Same type as last. 15 stars. About fine, but small planchet defect near edge. Rare. \$30.  
 1192. 1797 same as last variety. Appears to be very fine, except that an area covering half of head is dented or scraped spoiling middle portion of hair. Does not show too badly, unless you use a glass. Reverse fine. \$30.  
 1193. **1797 half-dime.** Variety with **16 stars**, for additional state admitted, this year. Very good, everything very clear, and date fine and bold. Rare. \$30.  
 \*1194. **1797 half-dime. 13 stars.** Last type struck of 1797's, going back to 13 stars for original 13 colonies, as officials now knew the country would grow and prosper, and many

- states would come into the Union, which would make too many stars for a coin. Entirely fine. V. rare. Cat. \$50.
1195. **1800 half-dime.** New type, obverse similar to last, but reverse has large heraldic eagle, with motto on ribbon. Variety with LIBERTY perfect. Very fine, except for dent in field before neck, and another small one at top of F on reverse. Also edge cut over RTY. \$25.
1196. **1800 half-dime.** Variety with LIBEKTY instead of LIBERTY. Very fine, strictly so, and equal to the Dupont specimen which sold for \$50.
1197. Another, as last. Very good, several bad dents on obverse, and bent a little. Fine bold date, for space filler. \$12.50.
1198. **1801 half-dime.** Obverse very good. Reverse nearly good, every letter and star shows, wear mostly on eagle. Rare. \$35.
- \*1199. **1802 half-dime. Rarest date half-dime,** and one of rarest in the whole U.S. coinage. Obverse good; except a bad 3 mm. cut to left of date extending through the 1. Figures 802 are strong and bold. All of the stars and letters show up plainly. Reverse poor: most of eagle and some stars show, and most letters of legend show a little with UNITED hardly showing at all, and letters OF AM showing best. Numerous scratches on reverse. Excessively rare. The Dupont specimen ex. fine sold last year for \$1025. This piece estimated in value at \$250, and may go higher or lower.
1200. **1803 half-dime.** Very good, with a fine bold date. Rare. \$30.
1201. **1805 half-dime.** Very good; would be fine except that it is weakly struck on right wing of eagle, and a few stars on right of reverse do not show up. Very rare. \$50.

### **THE HENRY A. STERNBERG COLLECTION of UNITED STATES LARGE COPPER CENTS**

It is with great pride and enthusiasm that I have been privileged to catalogue the exciting collection of United States large cents, assembled over a long period of years by the late Henry A. Sternberg of Dundee, Illinois. Mr. Sternberg's collecting activities covered over half a century, and he was well-known as an expert and specialist in this field of American numismatics. His knowledge of die varieties, and color and quality of cents, as well as his generosity in paying what coins were worth, brought him many choice pieces, some of them "the finest known." Mr. Sternberg enjoyed his collection day by day, and it brought him much pleasure and happiness, especially when some other great collector came to visit him, as for example, his friend the late Homer K. Downing. With his will, Mr. Sternberg left a paper, directing me to catalogue and sell his collection, so that other collectors may experience the same thrills and pride of ownership that were his.

With the same careful and conservative methods that I have exercised for the past half a century, I have described each and every coin as I see it, and according to the golden rule. I feel that collectors may bid with full confidence, and I guarantee entire satisfaction in every respect, as in all of my past 189 sales. I have had contact photographic prints made of many of the rarest pieces, and these lots are so indicated with an asterisk (\*) before the lot number. Serious collectors, who are interested in any such items may write for a photo print of same. These are more satisfactory than the usual plates. Inasmuch as choice large cents are now scattered far and wide among many collectors, I sincerely hope that every cent collector may acquire a few pieces at least from this truly great collection. Each coin is in its little box with attribution by Mr. Sternberg.

- \*1541. **1793 Cent. Crosby 4-C. Sheldon No. 4.** Small head of Liberty with long flowing hair. Periods after LIBERTY. and after date. Reverse: value ONE CENT and 1/100 inside endless chain of 15 links; around UNITED STATES OF AMERICA. Edge, vine & bars. **Uncirculated.** Sheldon's rating MS-60. Beautifully toned an attractive lustrous light olive color, with considerable original mint red close to letters, date, hair, and chain. It is one of the three or four "finest known", and, to my knowledge, no specimen to nearly equal it, has been offered in any sale in the past 9 or 10 years. In my humble opinion the value of this coin today is \$1000.
- \*1542. **1793 Cent. Crosby 7-F. Sheldon No. 6.** Wreath type, with vine & bars on edge. The head with flowing hair is small, as are the letters in LIBERTY and figures of date. Ex. fine; light rim bruise on left obverse edge, and small edge nick over final S in STATES. Under a glass the whole surface appears rough, uniformly so. Medium olive color. Valued at \$200, or more.
- \*1543. **1793 Cent. Crosby 11-J. Sheldon No. 11c.** Sharp pointed bust with flowing hair; sprig between bust & date. Reverse: wreath type, with legend distant from edge. Edge lettered ONE HUNDRED FOR A DOLLAR. Variety with a **single leaf** after word DOLLAR. Beading all around obverse. Very fine; minor edge bruise opposite neck and minute nicks in field, of both sides. Reverse has 3 or 4 small edge nicks. Light brown. The lettered edge on this coin is the most beautiful I have seen, with original mint red showing well in the incused portion of every letter. Valued at \$125.
1544. **1794 Hays 1. Sheldon 20. Head of 1793.** Entirely good, and free from any nicks or dents. Surface somewhat rough. Reddish brown. A rare variety. \$35.
1545. **1794 Hays 2. Head of 1793.** Very good; trifling edge bruise on right obverse. Dark brown. Very scarce. Sheldon's No. 19b. The Downing specimen in about the same condition sold for \$26, but that was nearly 4 years ago. Worth \$35 or \$40.
1546. **1794 Hays 3. Head of 1793.** Double chin variety, with stem and point of leaf on edge pointing up. Sheldon No. 18b. Obverse about fine with a few small scratches. Reverse very good, except letters ITED of UNITED are weakened by die sinking. Light brown color. Very scarce. \$30.
1547. **1794 Hays 5.** Variety with pole of Liberty Cap broad and flat at end. The bust and hair in lower relief than the foregoing "heads of 1793" type. Sheldon No. 21. Obverse fine; reverse very good. Free of any defects, but under

a glass the surface appears rough. Dark brown color. Cost Mr. Sternberg \$26.50.

1548. **1794 Hays 6.** The "short bust" variety. The hair is thick, short, and in wavy locks. Sheldon No. 47. Very good, except the edge has several nicks and bruises. Dark brown color. Rarity 5, which makes this a rare variety, according to Sheldon, the authority on the subject. \$25.
1549. **1794 Hays 7. The perfect die variety,** Sheldon 49. Short bust. Known as the "closed wreath variety" because the two branches of the wreath touch at the top closing the circle. Very fine; the only defect is a short shallow 2 mm. scratch on neck. Much superior to the Downing specimen. Dark olive color. Scarce from perfect die. \$35.
1550. **1794 Hays 7. The broken die variety.** Die break from top border down through upright of E in LIBERTY to hair. Fine. Medium olive color. \$20.
- \*1551. **1794 Hays 10. S-51.** Short bust type, with hair in long fine locks. Reverse: the closed wreath style. **The extremely rare variety with extensive die breaks on obverse,** including a prominent break from left border through second lock through the hair. Very fine; a dozen or more small pit marks on obverse. Strong even impressions. Dark olive color. Notwithstanding the defects mentioned above, this is still an attractive coin, especially the reverse, and is one of the three finest known. It is the original **Hays specimen**, and later in the Pearl catalogue (lot 24), then in the Downing coll'n. (lot 1647), and (through Kaplan) to the Sternberg coll'n. \$100.
- \*1552. **1794 Hays 11.** The "crooked 7" variety. The stand of 7 is long, and the digit tipped to right. Sheldon No. 54. From the Brand coll'n. where it was described as "extremely fine". I find it to be very fine, with a slight rim bruise on obverse near end of pole. Light olive brown color. One of the 4 or 5 best known. \$50.
- \*1553. **1794 Hays 12.** Obverse as last, but with die break from left border below cap to hair. Reverse: irregular wreath. Sheldon 56. Weakly struck at top portion of obverse and corresponding lower part of reverse. The struck up portions are ex. fine, and the coin is one of the six finest known. Lustrous dark olive color. Very scarce die variety. \$50.
1554. **1794 Hays 13.** Large berries in wreath. S-55. Very good; obverse edge dent near Liberty cap. Reverse shows pinpoint nick at fraction. Light brown color. Scarce. \$20.
1555. **1794 Hays 14.** The "pyramidal head" variety. S-57. Obverse a nice very fine, medium olive. Reverse fine with some light corrosion areas, olive & brown. \$15.

1556. **1794 Hays 15.** Wide date, thick hair. S-59. Fine; would rate higher, if it were not for the rough surface, and edge dent at L in LIBERTY. Rarity 4, very scarce. Dark brown. \$20.
- \*1557. **1794 Hays 16.** The flowing hair in luxury locks. S-58. Very fine; light scratch on cheek. Very nice obverse, light brown. Reverse more mottled surface, with some light corrosion areas. Very rare so choice. Cost \$55.
- \*1558. **1794 Hays 17.** Large planchet, the "full cheek" variety, and full milled borders on both sides. S-24. Extremely fine; except ENT of CENT is weakly struck because of thick hair lock at ear on obverse. Light brown olive color. Attractive cent in both artistic design, and condition. Cost \$57.50 and worth it.
1559. **1794 Hays 18.** Obverse struck from a badly shattered die. S-23. Obverse fine but several nicks, a deep one on cheek. Reverse very good. Edges with several small dents. A rare variety, according to Sheldon, the authority. Medium brown color. From the Sargent coll'n. (1913). \$25.
- \*1560. **1794 Hays 19.** Small berries. S-41. Obverse very fine; a few very light edge dents. Reverse fine; OF A weak, and edge dented over last S in STATES. Medium olive color. Very scarce, rarity 4. Formerly in Hines and J. P. Young collections. \$35.
- \*1561. **1794 Hays 20.** Variety with short upper locks. Always with weak OF. Sheldon 42. Rarity 5. Obverse ex. fine, with attractive glossy light brown color. Reverse very very fine, a few small corrosion areas, red and olive color. Rare variety. One of the 5 finest known. Cost \$75.
- \*1562. **1794 Hays 21.** Date widely spaced, especially 7 and 9. Some hair strands severed in this die. S-26. Reverse struck from a broken die. Ex. fine. Light brown. A beautiful cent. \$40.

- \*1587. **1796 Liberty Cap cent.** Low 6 in date. Reverse has triple-leaf under AM in AMERICA. Gilbert D, Sheldon 84. Very fine 20. Would rate higher, except for several light edge bruises. Coin is well-centered with complete border millings. Lustrous medium brown color. Cost \$60 and worth it.

Better than Dupont's which sold for \$90.
- 1592. **1797 Cent.** Doughty 104, CN-23, S-140. This is the variety that **always shows swollen die** across pont of bust and back of hair. Better than the Newcomb specimen which sold for \$110 eleven years ago, and equal to the Atwater piece which sold 10 years ago for \$105. Not the same coin, as Mr. Sternberg owned this coin longer than that.
- \*1603. **1808 Cent.** "The 12-star variety". Early strike with the reverse die crack very light; thus the first star shows up

well and only slightly weak. All other stars show center lines. Sheldon 277, D-208, Clapp 1. Extremely fine 40. A few minute pits seen under a glass on obverse to right of and below bust. Rich glossy reddish brown color. Very rare early state of the dies. \$60.

- \*1626. **1823 Cent. Perfect date and perfect die. This superb specimen is without these breaks, and has complete unbroken border millings on both sides. Magnificently toned to lustrous light reddish olive. Stars never show center lines well on these coins. This coin was consigned from the mint in Paris, France forty years ago to the Chicago Coin Club to be sold in their auction at the monthly meeting. Mr. Sternberg was the successful bidder at the sum of \$14. Subsequently, at a national convention, it was carefully examined by Henry Chapman and Elmer Sears and pronounced by both of them as "the finest known." No specimens of this variety exist in proof. ## COIN COLLECTORS' COLUMN OF COMMENTS

**Fifty Years in Numismatics.** Exactly 50 years ago this month, in March, 1906 Mr. Bolender began to collect and study coins, in an enthusiastic manner. He had an inspiring start, for it was then that his grandfather one day gave him his collection of seventy old coins, as a reward for school honors and high report cards. At the age of fourteen, he received a scholarship good for any one of five colleges. But he preferred numismatics and never used the scholarship. He has studied abroad in most of the principal museums of Europe, including the government collections in Oslo, Stockholm, Copenhagen, Munich, Dresden, Berlin, Vienna, Paris, and the British Museum in London, besides many others. His start in business was in Orangeville, Illinois, his birthplace, in a 20-room brick building with a bank right next door, convenient facilities. In 1939 Mr. and Mrs. Bolender built a beautiful modern home in Freeport, Illinois, and from there conducted the business. In May 1952 they moved to California, after a Christmas eve blizzard, and two hours of snow shoveling, weakened the heart, forcing him to retire. In a year and a half, his doctor ordered him back to work, recommending "mild fatigue" and much out-door living. The auction sales were resumed. Nearly a year ago Mr. Bolender underwent surgery, from which he fully recovered. These things are being written here, because so many collectors have asked about him. Your letters and good wishes have been much appreciated, thanks to all.

**Collectors of experience** have found that not all dealers classify the condition of coins alike. To the collector this should be a very important matter, and wise collectors soon learn where to buy their coins, and where not to do so. Mr. Bolender began to collect and study coins just 50 years ago this month. He is from the old school, and learned to classify coins from the Chapmans, Elder, Proskey, and Lyman H. Low, attending many of their sales in person. Much has been said and written on the subject of condition of coins, in this country, in recent years. The matter rests upon the honesty and integrity, and the knowledge and experience of the dealer. Mr. Bolender believes that a coin or note should be described exactly and carefully, and the same whether he is buying or selling it. In auction his position is neutral between the buyer and the seller or owner, and every coin is described by Mr. Bolender personally, and never by the consignor. The many years of success with these 189 sales would never have come about, without this care. A coin described as "fair" is not a poor or worthless coin, if it is rare. Fair coins show at least half of the design and lettering. Good coins are often not badly worn, and they must show all design and letters and date plainly. Fine coins have very little wear, and such coins as Indian cents and Liberty head nickels must show all letters of word LIBERTY clearly. If any of these coins have bad nicks,

dents, scratches, planchet defects, corrosion, or other defects, such defects should be also noted. A good coin ought to be "good" and not "bad". A fine coin should be very pleasing to the eye. Very fine, extremely fine, and uncirculated coins must all be choice pieces, of desirable quality, and defects should be stated. It is not fun to have to return coins that are not as represented. It can be delightful pleasure to receive items that satisfy.

**When you receive your coins,** your comments as to whether you like the condition of the coins sent you, or whether you do not, will be greatly appreciated. If anything is not satisfactory, you may be sure that Mr. Bolender will fairly consider your case.

**Rare coins and paper money for everybody** are to be sold in this sale. Not always do we have so wide a variety, that we can expect a bid sheet from nearly every person who receives this catalogue. Our mailing list has grown so large (over 16,000 names of collectors on our lists) that it becomes necessary to revise it, due to high costs of printing such a catalogue, and distributing it. Therefore, **IF YOU ARE NOT BIDDING AT THIS SALE, please drop a card or letter in the mail,** requesting that we continue your name on the mailing list. If we do not hear from you, or receive bids from you, we will consider that you are no longer interested.

**Photographic contact prints** have been made of many of the choice and rare coins in this sale. These include most of the early silver dollars from No. 654 to 681, and the 5 pattern dollars, lot 697, 699, 706, 707, and 708. Also all other numbers in the catalogue, where lot number is preceded by an asterisk (\*). If you are bidding on any of these items, you may request a print of that particular coin. This will be sent airmail immediately, and must be returned in the stamped envelope provided, so that we may use it for other serious bidders. These will show you the coin better than the customary catalogue plates.

**The Henry A. Sternberg collection** of large cents is magnificent. You will note that many of the items have been photographed, and prints will be available only to those who wish to bid on them. Please designate lot numbers that interest you. The Sternberg cents include 40 different die varieties of 1794, and very choice pieces of most of the early dates. The Sternberg collection of quarter dollars offers choice pieces also, worthy of special attention, and a proof 1836 milled edge half-dollar.

**The Louis L. Lincoln collection** of uncirculated Lincoln cents is complete, except the late common dates. His gold dollars are complete, including all rare mints. His half-dimes are complete, with all dates and major types, including the 1802.

**King Farouk of Egypt** formerly owned the old large size notes listed in lots 1019 to 1036. Some real rarities here. More from this collection will be sold in my 191st sale.

**Over 5000 coins and notes** will be sold in this present sale. In this catalogue which you now hold in your hands, you will find plenty of opportunities for whole collections, type sets, dealers' lots, rolls, proofs, ancient Roman & Greek coins, gold coins, early U.S., commemoratives gold & silver, sets in different series, 300 Colonial bills, 200 obsolete notes, choice silver dollars with 27 before 1804, proof sets, hundreds of dimes many unc. and rare, complete set of half-dimes, New England Pine-tree shillings, complete set of gold dollars, rare numismatic books, etc., etc. See the index to quickly find what you want.

**Biggest bargain in the sale** will be the price list at only 50 cents, if ordered in advance of the sale. You will get from it much interesting information and pleasure, and will profit from the up-to-date record of present-day values. After the sale date, the price is one dollar. Just mark your order in the place provided on the bid sheet. These are mailed first class about a week after the sale. Sorry we sold out last time. If anyone has a price list of 189th sale and no longer needs it, I will appreciate receiving it, to help a few who were disappointed.

**A numismatic treat for all of you** who plan now and attend the annual convention of the American Numismatic Association, which will be held this year in Chicago, at the Congress Hotel on August 22-25. In the fitting words of Glenn B. Smedley, the general chairman, "coins are fine, but the **collectors** are the best part of our hobby", this is where we become personally acquainted, and enjoy fraternal fellowship, and study the exciting exhibits, attend programs, and make new friends with other collectors. For a worth-while vacation, plan now. If you are not yet a member of the association, now is a good time to join, if you will write to me for an application blank. The annual dues are only \$5, which includes a year's subscription to the **NUMISMATIST** monthly magazine.

## **If You Plan To Sell**

If you plan to sell your collection, either for cash or by auction sale, write me a letter giving a brief outline of your collection. I have purchased hundreds of fine collections for cash, and my 191st auction sale is now in preparation. Experience and results are two things that should interest you. A price list of this sale will prove to you that we get the results that only experience brings. My reply to your letter will convince you, and you will be glad that you wrote to me.

Mr. M. H. Bolender  
P. O. Box 63  
San Marino, California

Dear Mr. Bolender:

I acknowledge receipt of your airmail report and check for \$962.75, representing the proceeds from your recent auction in which my coins were sold. I appreciate very much the prompt report you have made, and the payment of the proceeds.

By a strange coincidence Mr. William J. Back, one of my fellow lawyers, spoke to me that he had bid on and purchased some of the coins from my collection. He did not know I had a collection, and I did not know he collected, which is just one of those little coincidences that are interesting.

I want to thank you for the fine way in which you have handled this consignment for us. I have not one single word of criticism, but all of praise. Your sale brought splendid results beyond my expectations, and the service you gave us could not be finer. You have my sincere thanks and appreciation.

Sincerely,

LLW:ld

*Louis L. Williams*
